### Summary

I'm a quirky, optimistic animator with a clean professional style. I recently graduated with a degree in 2D Animation - and already have over 5K subscribers of my YouTube channel! I'm \*always\* animating, and have published a ton of original content, including *Another Random Day*, and a pilot for a series called *The Grungebunge Chronicles*. My influences include *SpongeBob*, *Steven Universe*, and *Studio Ghibli*. I'm looking to animate professionally on high-end content for major studios like Nickelodeon or Adult Swim - and I even come with well-developed IP to potentially pitch and develop!
